LEATHER CARE

TAKING THE TIME to periodically clean Justin boots adds years to their life, and contrary to popular belief, the steps are simple enough for anyone to perform.

- WIPE THEM OFF AFTER EVERY USE.** You can use a white towel, a damp white rag, even your socks. Dust and dirt particles are leather's biggest enemies. They work into the folds, eventually causing abrasion and cracking.
- ALLOW THE BOOTS TO DRY OUT BETWEEN WEARS.** A good practice is to rotate your boots every other day if you have multiple pairs.
- PERIODICALLY CLEAN, POLISH, AND CONDITION YOUR BOOTS.** Leather, like your skin, dries out. By conditioning your boots, you lubricate the fibers and add to their life. See the following guide for correct cleaning applications and always make sure to read the labels of boot care products before using them.
